

Dear Maker Geek !

Hope you are safe and healthy. We are super excited to have you onboard. This PDF contains the resources of YouTube Channels of experts and nerds all over the world who have been working on 3D printing for the last 10 years.

To fuel your excitement, have a look at these YouTube channels by other Maker Geeks like you and explore yourself.

Josef Prusa, the original creator of Prusa 3D Printers from Czech Republic:

<https://youtube.com/c/JosefPrusaRepRap>

Maker's Muse by Angus from Australia: <https://youtube.com/c/MakersMuse>

RC Life On by Simon from Sweden: <https://youtube.com/c/RcLifeOn>

CNC Kitchen by Stefan from Germany: <https://youtube.com/c/CNCKitchen>

3D Printing Nerd from USA: <https://youtube.com/c/3DPrintingNerd>

CHEP Filament Fridays USA: <https://youtube.com/user/beginnerelectronics>

Proto Labs Inc. USA: <https://youtube.com/c/ProtoLabsInc>

We are preparing the detailed Internship course material and soon we will email you the full road map on “**3D Printing A-Z: A practical guide to the world of making things**”

Have a nice day, we will see you again once the Virtual Internship program starts.

Regards,

Nikhil Chaitanya
